Issues for now and the future

- Growth – 5,000 lots in FY06 – “Big Ones”
- Cumulative effects – how are we really doing?
- Pharmaceuticals
<http://www.deq.mt.gov/wqinfo/Sub/Index.asp>
- EA vs EIS
- Storm Drainage
- Individual wells – 60-70% - availability issues both physically and legally available.
- Is it all sustainable? Irrigation issue – growing people vs crops.
